profiting from technological innovation is a key strategic challenge in technology intensive industries this book presents a multidisciplinary view of issues in technology commercialization and entrepreneurship

the end of the nineteenth century saw the construction of the vertically integrated value chains that came to define modern business the end of the twentieth century witnessed their deconstruction in industries across the economy markets are

intruding on the web of proprietary arrangements that have held these chains together as they do the boundaries defining business companies and industries are coming under attack radically transforming the nature of competition powerful forces such as globalization and deregulation are undermining the logic and practice of traditional vertical integration but the most powerful partly because it acts as catalyst and an accelerator is a revolution in the economics of information this shift in information economics is giving birth to a myriad of new strategic options the consequences of deconstruction for the strategic management of the firm as well as for the firm itself are dramatic deconstruction forces a fundamental rethinking of some of the basic principles of strategy which will impact on the concepts of the portfolio forms of organizational structure styles of leadership mechanisms for acquiring and managing knowledge and approaches to uncertainty and risk this the latest volume in the strategic management series explores the implications of the value chain deconstruction for strategy the changes in strategic thinking and the action necessary to cope with the challenges and opportunities bringing together contributions from key figures in the field of strategy in both practice and academia this book as with other books in the series addresses the ideas and issues at the forefront of strategic management theory and practice

law plays a key role in determining the level of entrepreneurial action in society legal rules seek to define property rights facilitate private ordering and impose liability for legal wrongs thereby attempting to establish conditions under which individuals may act these rules also channel the development of technology regulate information flows and determine parameters of competition depending on their structure and implementation legal rules can also discourage individuals from acting it is thus crucial to determine which legal rules and institutions best enable entrepreneurs whose core function is to challenge incumbency this volume assembles legal experts from diverse fields to examine the role of law in facilitating or impeding entrepreneurial action contributors explore issues arising in current policy debates including the incentive effect of legal rules on startup activity the role of law in promoting or foreclosing market entry and the effect of entrepreneurial action on legal doctrine

this is the 2nd edition of technological innovation profiting from technological innovation requires scientific and engineering expertise and an understanding of how business and legal factors facilitate commercialization this volume presents a multidisciplinary view of issues in technology commercialization and entrepreneurship

global strategy a market creation approach is a groundbreaking textbook that redefines the field of global strategy shifting the focus from scaling established businesses to creating innovative businesses responding to international market needs

authors sali li and noman shaheer equip future multinational leaders with the tools and insights needed to succeed in the rapidly evolving world of global business

in the quest for global dominance they present the lessons from their twenty year study of over two hundred corporations they argue that in order for a company to create and maintain its position as a globally dominant player executives must ensure that their company leads its industry in four essential tasks the quest for global dominance provides executives with leading edge ideas on how to accomplish these tasks in a manner that makes them easy to put into action jacket

strategic management an organization change approach examines the art and science of strategic management in businesses and other organizations working from an established theoretical base this new work discusses practical applications of various strategic management philosophies while focusing on strategy as organizational change sherman rowley and armandi outline specific strategies and tactics that managers can use to maximize not only productivity but also satisfaction in their human organizations in an interactive and approachable manner strategic management analyzes the importance of an organization s internal and external environment explains how to develop an organizational mission vision values and goals identifies human level vs corporate level strategy choices and offers advice on how managers can effectively implement their plans the authors also consider variables that might affect the proposed strategic management approaches such as international environments and non profit government and small businesses
